

PRAMIL DHUNGANA

Full Stack Developer

Kathmandu, Nepal | 9814303600 | pramildhungana7@gmail.com

Portfolio: <https://www.pramildhungana.me/> | LinkedIn: <https://www.linkedin.com/in/pramil-dhungana/> | GitHub: <https://github.com/Pramil-07>

PROFESSIONAL SUMMARY

Full Stack Developer with 1.5+ years of experience building production web products across commerce, SaaS, and service platforms. Strong in React, Next.js, TypeScript, Django, FastAPI, and PostgreSQL, with hands-on experience delivering end-to-end features across UI, APIs, authentication, payments, analytics, testing, and release support. Recently contributed to NepaWorks products NepaStore and SellrClub, after earlier delivering customer-facing and internal tools at CAGTU Nepal across Homaale, Buzz, Merchant Dashboard, CAGTU CMS, and Mitho Sweets.

CORE SKILLS

Languages: Python, TypeScript, JavaScript, SQL

Frontend: React, Next.js, Vite, Tailwind CSS, Mantine, shadcn/ui, Zustand, TanStack React Query

Backend: FastAPI, Django, Django REST Framework, SQLAlchemy, REST APIs, JWT Authentication

Database and Tools: PostgreSQL, Redis, Docker, Git, GitHub Actions, Alembic, RabbitMQ

Testing and Quality: Pytest, Playwright, Vitest, Storybook, structured debugging, migration fixes

PROFESSIONAL EXPERIENCE

Full Stack Developer | NepaWorks | Jan 2026 - Present

- Build and ship full stack features across NepaStore and SellrClub using React, TypeScript, FastAPI, PostgreSQL, Redis, and Docker.
- Delivered NepaStore functionality across frontend and backend, including authentication, admin invitation flows, cart and order updates, audit support, and migration fixes.
- Built SellrClub capabilities such as password reset, workspace state management, notification and workspace integration, warehouse APIs, time-tracking support, and SMTP configuration updates.
- Resolved migration conflicts, backend reliability issues, and unnecessary frontend API calls while supporting active product delivery across multiple repositories.

Full Stack Developer | CAGTU Nepal | Nov 2024 - Jan 2026

- Developed frontend and backend features across Homaale, Buzz, Merchant Dashboard, CAGTU CMS, and Mitho Sweets using Next.js, React, Django, PostgreSQL, and REST APIs.
- Built service booking, merchant management, analytics, e-commerce, and payment-related modules including availability APIs, sold-products workflows, Google OAuth, Khalti and eSewa payment features, map and location workflows, and shop and product analytics.
- Improved product quality through bug fixing, API integration, responsive UI updates, test support, and release troubleshooting across multiple team repositories.

Full Stack Intern | CAGTU Nepal | Aug 2024 - Nov 2024

- Built responsive UI components, connected frontend screens with APIs, and fixed issues in live products while learning collaborative workflows and code review practices.
- Contributed early frontend improvements to company products, including dynamic data rendering, mobile responsiveness, and UI refinement.

PROJECTS

NepaStore | B2B Wholesale Ordering Platform

React, TypeScript, FastAPI, PostgreSQL, RabbitMQ, Redis, Docker

- Contributed across frontend and backend for authentication, admin invitations, cart and order updates, audit support, and migration fixes.
- Worked on buyer and admin workflows that improved ordering experience and backend reliability.

SellrClub | Multi-Tenant Sales Operations SaaS

React, TypeScript, FastAPI, PostgreSQL, Redis, Docker

- Built password reset flows, workspace state management, notification and workspace integration, warehouse APIs, and time-tracking support across frontend and backend.

- Helped solve migration conflicts, business API issues, SMTP configuration, and local development setup for smoother delivery.

Homaale API | Service Booking Platform Backend

Django, Django REST Framework, PostgreSQL, Docker, Pytest

- Implemented backend APIs for available slots, packages, merchant and sold-products workflows, payment integrations, analytics filters, and service booking operations.
- Added tests, management commands, and reliability fixes for payment, offer, order, transaction, and receipt flows.

Homaale Web V2 | Service Marketplace Frontend

Next.js, React, TypeScript, Mantine, React Query

- Delivered booking and merchant-facing UI features including available slot flows, merchant registration, booking details, waiting lists, reviews and filtering, and sold-products pages.
- Integrated map and autocomplete workflows, improved search and location selection, and resolved responsiveness and build issues.

Buzz API | E-commerce and Content Backend

Django, PostgreSQL, Redis, REST APIs

- Built product and blog CRUD, analytics APIs, vendor operations, ratings, order-status history, cart and checkout improvements, and delivery-charge endpoints.
- Integrated Google OAuth, Khalti payments, caching, and payment-method import support.

Merchant Dashboard | Merchant Analytics and Operations Portal

Next.js, React

- Worked on shop configuration CRUD and merchant, shop, and product analytics views for internal and admin workflows.

CAGTU CMS | CMS and Admin Workspace

Nx, React, Mantine, React Query

- Supported a modular CMS and admin frontend used for content and operational management workflows.

Mitho Sweets | E-commerce Storefront

Next.js, React, Tailwind CSS

- Contributed responsive storefront UI updates, shop card improvements, best-seller slider refinements, and mobile experience fixes.

EDUCATION

Bachelor of Science in Computer Science and Information Technology | Tribhuvan University | Kathmandu, Nepal | Oct 2025

CERTIFICATIONS

Full Stack Development Internship Certificate | CAGTU Nepal | 2024
